**Request for quotation:**

Dear Recipient,

We are looking for a new supplier who will be able to manufacture custom printed golf balls. For our product we would like to purchase a 4-piece ball but are open to evaluating 3 piece and 2-piece balls based on quality and price.

Our first order will be 1200 units, with the expectation of repeat sales based on our current sales volume.

Additionally, we are also sourcing a printer for packaging (see page 3&4). Requested volume will be 400 units.

We request that you send samples to the address listed above.

If you require any additional information, please do not hesitate to reach out to me.

Warm regards,

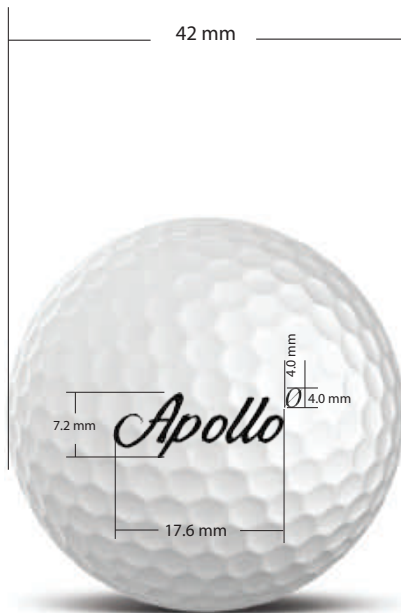

**Micheal D Walsh**
